

## Improved standards of cables

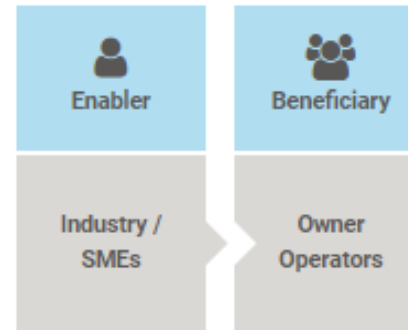

Type of Entry: Innovation Area

<https://offshorewindinnovationhub.com/category/electrical-infrastructure/>

Electrical Infrastructure > Component Reliability Improvement > Cables

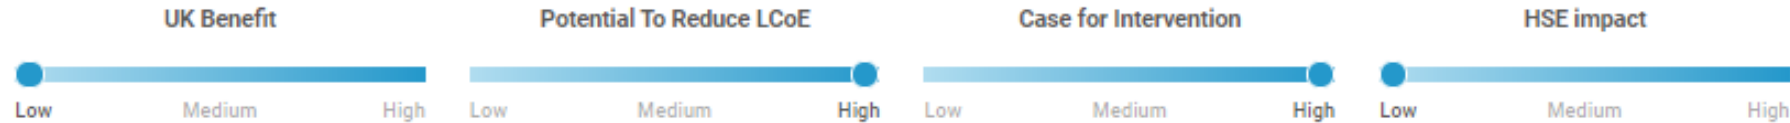

### Description

Seek improvement of offshore wind subsea power cables standards including all types of pre-commercial and factory testing.

### Strategic Outcome

- Enabling disruptive innovation
- Commercialising >15MW turbine platforms**
- Maximising operational performance of existing wind farms

Notes: Improved design would lead to less failures and decreased frequency of underwater inspection

### Technology Readiness Level
